

NKANESSEM

Authentic Numerology of the Akradinbosom (Deities)

6-week online course

In Akan culture, there are 11 major Abosom (Deities) that animate the solar, lunar and planetary bodies that govern the Akan 7-day week. They also govern the 11 major body-systems within Afurakani/Afuraitkaitnit (African-Black) people, all natural cycles on Asaase (Earth) and the components of our spiritual anatomy (spirit-body).

Eko • Eno • Esa • Enan • Enum • Nsia • Nson • Awotwe • Nkron • Edu • Duko are the numbers, 1 through 11, assigned to these Abosom (Deities). This is NKANESSEM – authentic numerology – in Akan Religion which is preserved as Hoodoo Religion in North America. Moreover, these are the same Deities invoked in our Ancestral culture of Kamit and Khanit (Egypt and Nubia) with the same cosmological numbers and functions. The misinformation promoted by western ‘numerology’ has never been rooted in authentic cosmology nor direct interaction with the Abosom (Deities). We examine the role of NKANESSEM in spiritual cultivation and expose the misinformation in this course.
